- I. Vocabulary: just translate
- **■** [vocab]

■ [vocab]

■ [vocab]

- [vocab]
- II. Greek-to-English sentences. Just translate into normal English, (most) <u>all</u> little words correctly translated. (As per handouts, textbook.)

(Literal, but not so literal that it doesn't sound like English or make sense. Don't, though interpret over-freely.)

[Sentences in Greek.]

III. α - or β -story passage: translate into normal English as per above.

[Passage from assigned reading.]

English-to-Greek sentence. Translate into ancient Attic Greek. IV.

Mark initial vowels, diphthongs with <u>breathings</u>.

$$-$$
 ή ήμερ α = $h\bar{e}$ $h\bar{e}$ mera

$$\vec{b} = -\vec{\omega} = \vec{o} \text{ (not } h\vec{o} \text{)}.$$

Do <u>not</u> mark accents.

[Brief passage in English, to be translated into Attic Greek.]

Quiz-quotation. If known, state author and/or work. Translate. Offer a V. paragraph-length, class-relevant comment

[Quiz quotation, in Greek, associated with the quiz in question.]
